OBJECTIVE

Fourth-year BS Information Technology student at La Consolacion University Philippines with hands-on experience building full-stack web systems with PHP, JavaScript, and Supabase, along with technical support and team leadership. Seeking an opportunity to apply my skills in software development and IT support while continuing to grow in a professional setting.

SKILLS

Languages: PHP, JavaScript, Kotlin, SQL, HTML5, CSS3
Databases: PostgreSQL, Supabase, SQLite
Tools: Git / GitHub, VS Code, Android Studio, XAMPP, Apache, Docker, Nginx, Vercel, Microsoft Excel & Access
IT Support: Hardware troubleshooting, technical support
Soft Skills: Leadership, problem-solving, customer service, creative thinking

ACADEMIC PROJECTS

Campus Event Hub — Group Leader & Lead Developer 2026
Capstone Project · PHP 8, JavaScript, HTML & CSS, PostgreSQL, Supabase

- Led a five-member team in building a campus event platform for La Consolacion University Philippines, where students sign up with their school email, browse events on one calendar, register, and evaluate events they attended.
- Implemented three role levels (Student / Faculty, Admin, Super Admin), with event approvals enforced by database rules.
- Built registration limits by capacity, deadline, audience, and year level, plus attendance tracking with QR scanning and printable reports.
- Added in-site and email notifications, and made the site installable on a phone's home screen like an app.

Personal Portfolio Website 2026
Personal Project · HTML5, CSS3, JavaScript, Vercel · github.com/arianjander-abergas/Personal-Portfolio

- Designed and built a responsive portfolio with a comic-book visual style, using plain HTML, CSS, and JavaScript with no frameworks.
- Added a colour and black-and-white theme toggle that is remembered between visits, and deployed the site on Vercel.

Android Mobile Apps 2026
Course Activities · Kotlin, XML Layouts, SQLite, Android Studio

- Built a two-screen selection app using radio buttons and checkboxes, passing the user's choices to a scrollable results page.
- Developed an app that queries names from an SQLite database and renders them dynamically as styled tiles in a two-column GridLayout inside a ScrollView.

EDUCATION

Bachelor of Science in Information Technology Expected 2027
La Consolacion University Philippines

Senior High School Graduated 2023
La Consolacion University Philippines

TRAINING & CERTIFICATIONS

Fundamentals of Enterprise Security April 22, 2026
